

EVOTOP - Strong as a Frame, light as a Tube

5 core components

Same load bearing capacity as PERI UP Flex
SW06, SW09, SW12 & SW15
Load classes 1-6 -> 0.75 - 6 kN/m²

Complete geometric combinability with PERI UP Kit

Global availability after BAUMA 2022

- Advanced guardrail in all directions and positions
- Gravity Lock
- Integrated locking deck

- Holding on the already familiar attributes of PERI UP and advancing them to higher level
- Stronger components - enabling additional load classes, width classes and additional heights in facade scaffolding
- Lesser anchor points than the rest
- Lesser material per m² façade
